

Neelkamal

PLASTICS

An ISO 9001:2008 Certified Company

Excellence is our standard...

Company Profile

Neelkamal Group started its operation in UAE 30 years ago, with diversified business portfolio. The global operation is managed by a team of professionals, supported by over 2500 employees worldwide.

Neelkamal Plastics is a ISO 9001:2008 Certified company and a 100% subsidiary of the group, having a state of art facility ideally located in the heart of the Lube Oil industry in Ajman, U.A.E.. Fully integrated facilities give the customers a unique advantage of a one stop solution - right from concept to product development and commercial production.

Neelkamal Plastics has evolved through a combination of commitment, experience, and R&D the ultimate in quality.

Our Success is the result of our continued effort of quality commitment and customers confidence and partnerships.

Lube Oil Large Packs

Medium Packs (Top and Side Handles)

Lube Oil Small Packs

All industries such as Lube, Edible oil, Adhesives, Chemicals etc., require large sized packages for bulk customers. To serve this need, we have a wide range of packs in 20 Ltrs, 25 Ltrs and 30 Ltrs capacities, with inner bungs, outer beri caps and normal caps with inner plug.

The Containers in this superior quality range are specially designed for lubricants, capable of withstanding high temperature and resistant to cracking and breaking. Manufactured from top quality raw material, with engraved, non engraved, printed and non printed caps*, these containers are available in capacities 3 Ltrs, 4 Ltrs and 5 Ltrs.

A measuring device with view-strip is an optional.

Ancillary to the Lube industry, is the industry of brake fluid, distilled water and other such paraphernalia that go into automotive usage. For this industry, we have a range of products from 250 ml to 1Ltr.

Grease Packs

Specially designed for the Grease, Vegetable Ghee, Edible products such as mayonnaise, cream, cheese etc., this wonderful range come in 250 gms to 1 kg packs.

PET Bottles and Detergent & Cosmetic packs

The design in the range for PET and HDPE Bottles. Available capacity from 100 ml. to 5 Ltrs. PET bottles are suitable for all detergent, juices, milk and edible oil packaging. HDPE bottles are suitable for packing chemicals, adhesives, liquid soaps, detergents and dishwashing liquid etc..

All our product are manufactured from top quality raw material.
